The **Work Values Survey** is the O*Net Work Importance Locator (O*Net WIL). It helps you learn more about your work values and can help you decide what is important to you in a job. Knowing your work values can help you decide what kinds of jobs and careers you might want to explore.

It has 20 statements and takes about 20 minutes to complete. This is not a timed survey; you can start and restart it as needed.

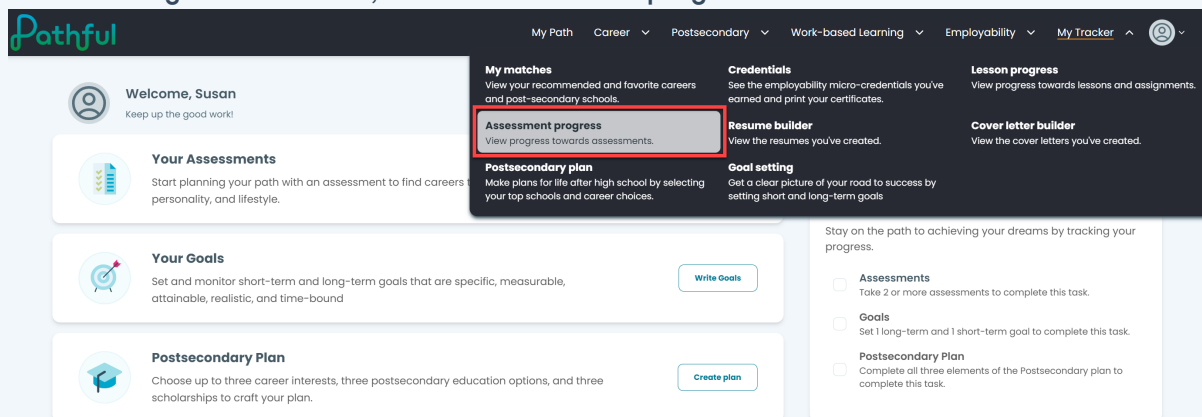

You will rank different aspects of work that represent six work values: Achievement, Independence, Recognition, Relationships, Support, Working Conditions

There are no right or wrong answers.

You will get scores for each of the six work values. These scores show how important each of the work values is to you.
