

Scheduling Changes for Live Sessions

Last Modified on 10/17/2024 5:03 pm EDT

We know that unexpected schedule changes can happen. If Pathful is still looking for a presenter, and the session appears under **Requested** in **My Sessions**, you can update the date options. The two-week window does apply to updating these sessions.

If you need to add dates within the two-week window, contact support through the purple "chat bubble" on the lower right corner of the site.

If your session is **already confirmed with a presenter**, you can not update the dates through the system and must reach out to the support team.
