

Create a Playlist

Last Modified on 10/17/2024 6:03 pm EDT

You can create a playlist of your favorite videos. In addition, you can view ones curated by Pathful or members of your community.

1. From the **Work-based Learning** menu, select **Playlists**.

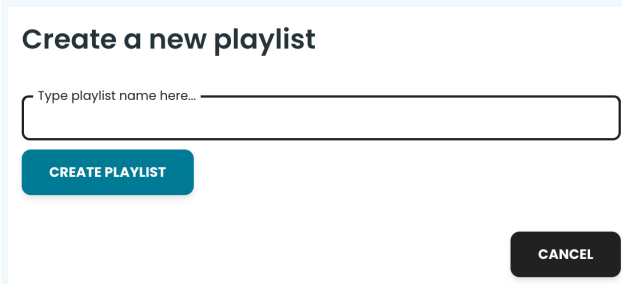

The screenshot shows a dark-themed menu with several options. The 'Playlists' option is circled in red. The options are:

- Discover**: Browse upcoming WBL sessions and other resources.
- Videos**: Explore our comprehensive library of career profiles, session recap videos and recordings.
- My sessions**: View sessions you've requested, registered for, and recordings for ones attended.
- Join an upcoming session**: View our calendar of pre-scheduled WBL sessions.
- Lessons**: Find pre-made activity sheets, sample lesson plans and extension activities.
- Request**: Request a session for your classroom or an Event for your school or district.
- Playlists**: Check out themed video lists or create your own playlists.

2. Select **New** to create a new playlist.

3. Name your Playlist and select **Create Playlist**.

The form has a title 'Create a new playlist' and a text input field with the placeholder 'Type playlist name here...'. Below the input field are two buttons: 'CREATE PLAYLIST' (dark teal) and 'CANCEL' (black).

4. To add videos to your Playlist, click on **Browse Videos** to go to the library. Click the desired video card to go to the video page. On that page, click **Add to Playlist** below the video screen on the right side.

5. Choose the playlist or create a new playlist when adding the video. You also have the options to update the visibility and grade levels on this page.

Visibility

Private. Only you and whoever you share the playlist... ^

Private. Only you and whoever you share the playlist with can see this playlist

Public. Any member within your community can see your playlist

6. Pathful has created a series of Playlists for ease of use. You can find these and playlists from your community under the Types option on the opening Playlist page.
