

Export a FlexLesson

Last Modified on 12/19/2024 2:42 pm EST

Exporting a FlexLesson lets you print the lesson and have a tangible copy.

To Export a FlexLesson:

1. From My Dashboard, select Create Custom Lesson.

2. Sort by Lessons or Drafts to locate the lesson you want to export.
3. Click the vertical ellipses at the bottom right of the FlexLesson card.
4. Click the vertical ellipses and choose Export. This will open a PDF version of the lesson, which can be downloaded or printed.
